### SMP Edge Mount Connectors DC to 18 GHz

#### **High Density Board Connector**

**Withwave's SMP Edge Mount Connectors** cover wide frequency ranges from RF to Microwave with excellent frequency performance and high density. The proprietary internal insulator enables simple structure with higher performance compared to the conventional SMP connectors.

The best applications could be 5G complex mobile communications modules, systems and various other wireless systems.

#### Features

- Frequency Range: DC to 18 GHz
- Push-On and Snap-On for Quick Installation
- Edge Mount configurations

#### Application

- Telecommunication
- High Speed Applications
- Surface Mount Connection
- Broadband

#### Specification

| Scope                         | Items             | Specification                        |
|-------------------------------|-------------------|--------------------------------------|
| Electrical                    | Freq. Range (Max) | 18.0 GHz                             |
|                               | Impedance         | 50 Ohm                               |
|                               | VSWR              | 1.30 :1 (12 GHz)<br>1.50 :1 (18 GHz) |
| Material                      | Connector Type    | SMP                                  |
|                               | Body              | Brass (Gold Plated)                  |
|                               | Contact           | Brass (Gold Plated)                  |
|                               | Insulator         | PTFE                                 |
| Mechanical &<br>Environmental | Temperature       | -40 ~+125 ℃                          |

\*RoHS Compliant

# SMP Edge Mount Connectors DC to 18 GHz withwave

**High Density Board Connector** 

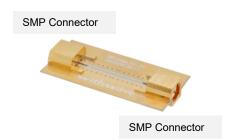

#### Ordering Information

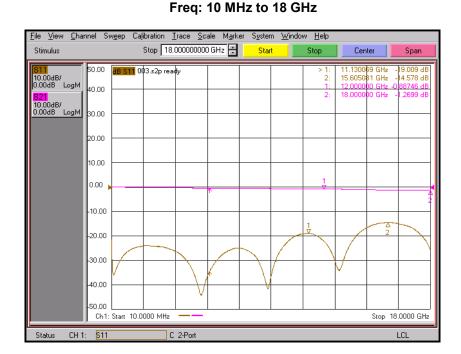

| Interface   | Part No.  |
|-------------|-----------|
| Smooth Bore | EL05MS001 |
| Full Detent | EL05MS002 |

#### ■ Test Results

Substrate: RO4003 8 mil

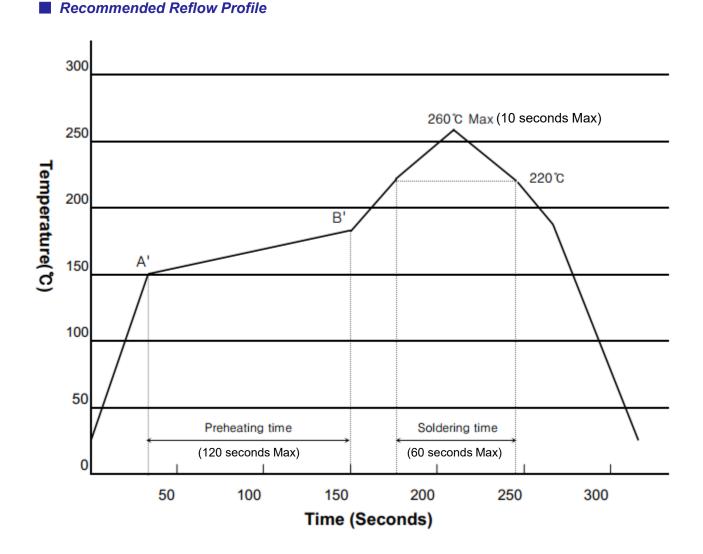

Part No.: EL05MS001

### SMP Edge Mount Connectors DC to 18 GHz

**High Density Board Connector** 

#### **Test Condition**

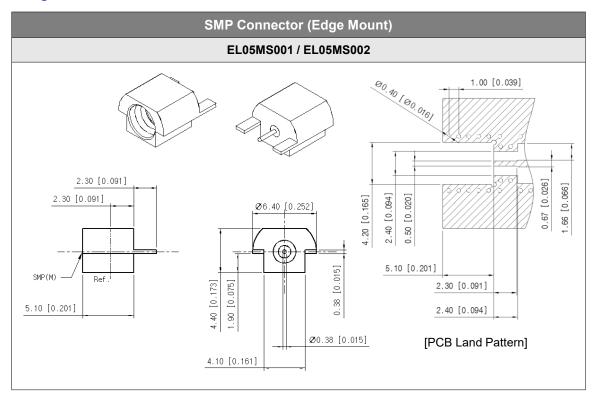

- Solder: Cream type Sn / 3 Ag / 0.5 Cu, Flux content 11%wt (M705 Lead free or Halogen free)
- Metal mask thickness: 0.1 mm
- Preheating time: 150°C~190°C, Max 120seconds
- Soldering time: 260°C Max, 220°C Min, Max 60 seconds

### [PSR Info.]

#### TIP

Solder connector body on the back side of substrate (ground plane) to improve RF performance.

Remove any excess solder and clean all flux and other residues from trace area.
