

## 45 Degree Connectors

# 45 Degree Connectors

**DC to 40,50 & 67 GHz**

**Withwave's 45 degree connectors** are specifically designed for easy installation in tight spaces, providing a reliable 45-degree connection with a solderless contact to the PCB surface on test and measurement boards. These connectors deliver outstanding electrical transition performance up to 67 GHz while also significantly reducing installation time by eliminating the need for soldering.

## • Features

- Freq: DC to 40, 50, 67 GHz
- 2.92, 2.4 & 1.85 mm interface
- Easy & Solderless Installation on designed substrate

## • Application

- Useful testing with 45 degree angle
- Easy & Solderless Installation on PCB
- Universal, Robust and Reusable

Product	Part No.	Description
	AS03FS001	2.92 mm type(Female)
	AS02FS001	2.4 mm type(Female)
	AS01FS001	1.85 mm type(Female)
