

## Multi-Channel SMPM Cable Assemblies (2 & 4 Channel)

# Multi-Channel SMPM Cable Assemblies

**(2 & 4 Channel): Compact Form Factor DC to 50 GHz**

Withwave's Multi-Channel SMPM Cable Assemblies (WMCM Series) consist of high-performance flexible assemblies, offering both **2 & 4 Channel options**. They feature a screwless, compact form factor that minimizes spatial constraints when mounted on a board. The board interface is designed with a compression-type mechanism, eliminating the need for expensive soldered components and significantly reducing overall testing costs.

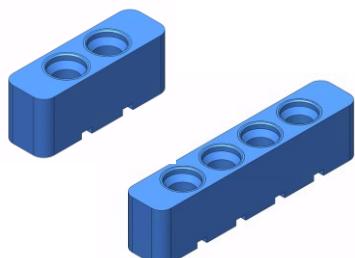

## • Features

- Freq: DC to 26.5, 40 & 50 GHz
- Solderless Vertical and Edge Mount (SMPM)
- Compact Form Factor (without Screw): 1x2, 1x4 CH

## • Application

- Semiconductor & Optical test equipment
- High Speed Test Module
- 5G Communication Systems

### Vertical Type

### Edge Mount Type
